

THE ULTIMATE 2026 Website Launch Checklist

Don't launch your next project blind. Use this 50-point checklist to ensure your website is fast, secure, and ready to convert on day one.

1. Performance & SEO

- ☐ Images are compressed and use WebP format
 - ☐ All meta titles and descriptions are uniquely written
 - ☐ Sitemap.xml and robots.txt are configured correctly
 - ☐ Google Analytics and Search Console are integrated
 - ☐ Core Web Vitals (LCP, FID, CLS) are optimized
 - ☐ Semantic HTML structure (H1, H2, H3) is verified

2. Security & Data Privacy

- ☐ SSL Certificate is installed and forcing HTTPS
 - ☐ Forms are protected against CSRF and Spam (reCAPTCHA)
 - ☐ Privacy Policy and Terms of Service pages are live
 - ☐ Cookie consent banner is active (if targeting EU/UK)
 - ☐ Database endpoints are secured and rate-limited

3. Mobile Responsiveness & UI

- ☐ Navigation works flawlessly on mobile devices
 - ☐ Buttons and touch targets are at least 44x44px
 - ☐ Text is readable without zooming on mobile
 - ☐ No horizontal scrolling occurs on any screen size
 - ☐ Favicon and Apple Touch Icons are present

4. Quality Assurance & Testing

All internal and external links have been tested

- ☐ Forms successfully send emails to the correct inbox
 - ☐ 404 Error page is custom and helpful
 - ☐ Cross-browser testing (Chrome, Safari, Firefox, Edge)
 - ☐ Proofreading completed for typos and grammar
